IN THE SPECIFICATION

Please amend the specification as follows:

Please replace the paragraph beginning at page 19, line 25 through page 20, line 6, with the following rewritten paragraph as follows:

-- The storage has been provided the ~~object-basis~~block-basis I/O to computers. The main function of the ~~object-basis~~block-basis I/O are to read data from a block (to read data from a block corresponding to the specified at least one block number so as to answer the computer), and to write data to the block (to write data to a block corresponding to the specified at least one block number to be written). --
